FONTAINE PAJOT MY6

1 274 495 € EX. VAT

Description

The MY.6 embodies the expertise of the **Fountaine Pajot** shipyard in the world of power catamarans, combining a proven technical platform with generous living spaces and a level of finish worthy of high-end motor yachts. Available with twin engines rated at 380 or 480 horsepower, this **Fountaine Pajot** model delivers a well-balanced blend of power, responsiveness, and cruising comfort. Both interior and exterior areas have been designed to accommodate a wide range of uses, allowing for shared moments as well as more private retreats. The stepped hull ensures smooth and stable navigation, while the design of the hulls and superstructures—characteristic of the **Fountaine Pajot** approach—enhances the feeling of space on board. Thanks to advanced onboard equipment, the MY.6 is well suited to extended cruising and longer itineraries. At an economical cruising speed of around sixteen knots, wider horizons become accessible without compromising comfort. Helm stations located on the flybridge and in the saloon benefit from advanced assistance systems, enabling relaxed and confident navigation, whether alone or in company. The interior layout has been designed to preserve privacy during longer stays. It features two cabins with queen-size double beds as well as an owner's suite fitted with a king-size bed, each with its own en-suite bathroom and separate shower. A forward central cabin completes the layout and provides an ideal space for children. The spacious saloon, with two facing sofas, offers a comfortable setting with panoramic views. A hydraulic table allows the space to be adapted to different configurations, while the well-equipped, functional galley is designed for enjoying genuine gourmet moments on board.
